RESTAURANT EXPERIENCE

Tropicana Hostel

Runner/Server/Busser

Jun 2022—Jul 2022

Antigua, Guatemala

- Ran early breakfast service for up to 50 patrons before their 2-day Acatenango volcano hike.
- Tended bar at night, serving local craft and artisanal beer; ran trivia competitions and other drinking games for guests.
- Performed general cleaning and upkeep, including rooms, beds, common areas, and tending to the pool.

Bolero

Server

Mar 2021—May 2021

New York, NY

- Seated and waited on multiple tables of parties up to 10 patrons across inside, front, and back outdoor seating.
- Made and served cocktails, beer, wine, kombucha, and tea; brewed coffee and crafted signature fruit-based cocktails and mocktails during brunch service.
- Set up and broke down indoor/outdoor seating area each shift.

Dhamaka

Bartender/Waiter

Feb 2021—Mar 2021

New York, NY

- Made cocktails and mixed drinks; served wine, champagne, beer, and soda.
- Seated guests and waited on parties of up to 8 patrons at a time.

College Town Bagels

Bartender/Waiter

May 2016—Sep 2016

Ithaca, NY

- Served ice cream and prepared sandwiches, bagels, pastries, cocktails, and coffee.
- Waited on and cleaned up after indoor and outdoor dining guests.

The 1850 House Inn

Waiter

May 2015—Sep 2015

Rosendale, NY

- Set up and cleaned restaurant area and outdoor patio.
- Waited on patrons, bussed tables, and restocked kitchen/bar.
- Coordinated with kitchen, waiting, and bar staff during dinner service.

Mohonk Mountain House

Granary Server

May 2014—Sep 2014

New Paltz, NY

- Prepared and served food for 400+ people daily at a historic resort.
- Coordinated with 100+ inside kitchen staff and 10 servers across each meal service.
- Delivered foods and cooking/serving supplies between kitchen and granary.

The Alternative Baker

Baker's Assistant

May 2013—Sep 2013

Rosendale, NY

- Assisted the head baker in mixing, kneading, and baking bread.
- Tended to customers, cleaned the restaurant, and made pastries and breakfast cuisine.

ENGINEERING EXPERIENCE

Tech To The Rescue

Lead Software Engineer

Sep 2025—

Remote

- Building a pipeline to ingest distributed **RTSP** streams, perform real-time processing, and cache video for low latency.
- Orchestrating application deployment onto **AWS EC2** machines using **Terraform** modules and **Docker** containers.
- Building dashboard **UI** that polls water station sensor readings, alerting administrators of anomalies or inconsistencies.
- Constructing a backend server to process registration of new water supply sites, facilitating expansion to more locales.

JPMorgan Chase

Software Engineer II

Sep 2024—Mar 2025

New York, NY

- Built a dashboard capable of visualizing 1k+ **LLMs**, allowing data scientists to monitor **ML** workflows.
- Augmented **FastAPI** logs with user IDs across all endpoints, ensuring traceability of 1M+ daily events.
- Validated client identities accessing **LLM** artifact registry, enhancing security and guaranteeing government compliance.
- Watermarked automated reports for non-compliant **LLM** projects to prevent unauthorized sharing to external parties.
